TARIFF CONFERENCE.

A REPUBLICAN SUBSTITUTE FOR THE MILLS BILL TO BE PREPARED.

The Senate to Take Its Time in Discussing the Measure-A Prolonged Session Anticipated.

Washington, July 25.—A tariff conference of the Republican sensiors was held at Sens-tor Evarts's residence to-night, at which the decision was reached that the Finance Com-mittee shall prepare a tark! bill as a substi-tute for the Mills bill, and that it shall then be reported to the Schale and taken up and passed regardless of the length of time it may require. Various propositions looking to an early adjournment and postponement of the tariff battle until December were suggested, but the arguments advanced by the advocates of the policy of passing the bill and making a direct issue as early as possible were so strong that the assembler became emphatically unantmous in favor of the course finally adopted. It was urged that the Democratic House had taken its time and consumed many months in framing and debating the measure it had put forth, and the Republican Senate should not be curtailed of its full liberty on the action of a question which so vitally affected the inerests of the country and of the Republican

The bill will be an outgrowth of that already sketched by the sub-committee, but the views expressed by the senators to-hight and approved by the majority of the senators will doubtless lead to some modifications and change of detail. The net reduction of the revenue to be attained will probably be between \$65,000,000 and \$80,000,000. The conference ad-

BARBOUR'S TRIAL.

THE THIRD DAY OF A SOMEWHAT CELE-BRATED CASE.

The Witnesses for the Commonwealth-The Wounds-A New Point-Public

CULPAPER, VA., July 25.—This is the third day of the special term of the Circuit Court— Judge Keith presiding—for the trial of Edwin Barbour, indicated for murder in the killing of Ellis Williams about the 1st of last March. Some of the accounts which have been sent from here of this trial and

have been sent from here of this that and surrounding circumstances are of a grossly exaggerated character. There have been no extraordinary incidents, no dramatic scenes or climaxes up to this time.

The accused, who is a son of James and a nephew of John S. Barbour, is indicted for murder in the first degree, but under the law of the case may be convicted of a much inferior grade of bounding the transport discreof the case may be convicted of a much inferior grade of homicide, the range of discretion running so low as to include even involuntary manuslaughter, with the punishment of the Eleventh regiment, at Elm and White streets, has been used for commercial purposes for some years, though still owned by the city. The ground floor was occupied by John Simmons, fron-pipe dealer, and the main hall by the McWilliams Printing Company.

The Lovell Manufacturing Company.

The testimony of the witnesses for the prosecution on the stand to-day tended to establish the theory of self-defence, and the fact of their being the Commonwealth's wit-nesses strengthened the defendant's case. Each witness testified that Barbour was scated at a table in his own office when Wit-

his sitending surceous.

Barbour was also wounded, and was considered to be in a precarious condition for ten days, though he is now fully recovered.

John F. Bixey, the attorney for the Commonwealth—Judge Bell is acting in his stead in this ease—is the brother-in-law of the nothe office after the firing commenced, but too late to do more than interpose after the harm had been done. His testimony as to the position and conduct of the parties when he rushed in showed that two brave lads-for neither was much more than a lad-had met, and bravely, if rashly, sustained them-selves in a deadly afteny. He disproved some statements of a former witness, who had testi-A NEW POINT.

through, but at present I am of the opposite opinion." The new alliance is considered a natural one on geographical principles, and it is suspected in Wall street that the smiability see companies is parily the result of threats by the Norfolk and Western to build extensions that would make virtually a parallel and to the East Tennessee. Other important considerations have influenced the East Tennessee interests in the board. The earnings have been sufficient to pay 5 per cent dividends on the controlling stock, but last year only 4 per cent, was declared, for the evident purpose of extending the control another year. It has been held by the couris that this was merely an evasion of the reorganizayear. It has been held by the courts that this was merely an evasion of the referanization provisions, and there is good reason for the belief that the East Tennessee does not wish to defend a similar action on the part of its junior securities. It is considered probable, therefore, that the sale will be accomplished. The meeting of the directors of the East Tennessee Company to declare a dividend was further postponed on second of the negotiations concerning the control of their peoperty.

" REVIEW OF THE CHICAGO MARKET. CHICAGO, July 2h -- Wheat made a not e of se, and closed at the top to-day. Sellh

of he, and closed at the top to-day. Selling was overdone yesterday, and a strong reaction to-day was helped on by good cables, buying by fereign agents, covering by the hig crowd of little shorts, and was still further strengthead by a very large decrease is the amount on passage both to the United Kingdess and the Controls. Export clearances also showed an advance. With all these inducements to buy the price was quickly forcal to about a over the closing prices of last night. Then came a slight reaction, subsequently recovered, and when the closing time came the outgreens was a full progress. The entire amount of wheat on the passage has decreased about 1,050,000 bushels in six weeks, and the decrease this week was about 1,050,00 bushels. The clearances reported at the Alianile ports were 65,000 bushels at New York, 31,000 bushels at Philadelphie, and 72,000 bushels at Beltimore, a total of 195,000. The flow experts

Ponnut Markets (By telegraph to the Dispatch.)

New York, July 2h.—The stock market to-day was again moderately active, but the advance received a slight set-back in all but a few stocks. The disposition to realize is very pronounced this morning and the sales of long stock for account of local operators foot up a very respectable total. London was a free buyer, taking round amounts of Reading, Eric, Lake Shore, Union Pacific, and Leuisville and Nashville, but the buying was not sufficient to stem the current of stock for sale at the figures. Healing was the feature of the day and the sales were considerably over one third of the solire amount of the stocks there was a heavy demand supposed to be from the insiders. This demand surposed to be from the insiders. This demand supposed to be from the insiders. This demand supposed to be from the insiders. This demand supposed to be from the free offerings later in the day, while the other coalers sympathized with it, although no advances were made. Chicago was doing very listle, though there was considerable pressure upon St. Faul, and it yleded reasility, while other Grangers were dull. Delay in negetiations in lichmond and West Point, East Transsee, Norfolk and Western matter had the effect of restricting the trading in southern stocks. In low-prical the lowest prices.
